

Fishery Conservation and Management

§ 660.508

under § 660.512 or exempted fishing permit issued under § 660.516.

(m) Make a false statement on an application for issuing, renewing, transferring, or replacing a limited entry permit for the CPS fishery.

(n) When fishing for CPS, deploy a net if a southern sea otter is observed within the area that would be encircled by the purse seine net.

(o) Fish for, target, harvest or land a prohibited harvest species in any fishery within the EEZ off the West Coast.

[64 FR 69893, Dec. 15, 1999, as amended by 72 FR 29892, May 30, 2007; 74 FR 33373, July 13, 2009]

§ 660.506 Gear restrictions.

The only fishing gear authorized for use in the reduction fishery for northern anchovy off California are round haul nets that have a minimum wet-stretch mesh size of $\frac{10}{16}$ of an inch (1.59 cm) excluding the bag portion of a purse seine. The bag portion must be constructed as a single unit and must not exceed a rectangular area, adjacent to 20 percent of the total corkline of the purse seine. Minimum mesh size requirements are met if a stainless steel wedge can be passed with only thumb pressure through 16 of 20 sets of 2 meshes each of wet mesh. The wedges used to measure trawl mesh size are made of 20 gauge stainless steel and will be no wider than $\frac{10}{16}$ of an inch (1.59 cm) less one thickness of the metal at the widest part.

§ 660.507 Closed areas to reduction fishing.

The following areas are closed to reduction fishing:

(a) *Farallon Islands closure* (see Figure 1 to this subpart). The portion of Subarea A bounded by—

(1) A straight line joining Pigeon Point Light (37°10.9' N. lat., 122°23.6' W. long.) and the U.S. navigation light on Southeast Farallon Island (37°42.0' N. lat., 123°00.1' W. long.); and

(2) A straight line joining the U.S. navigation light on Southeast Farallon Island (37°42.0' N. lat., 123°00.1' W. long.) and the U.S. navigation light on Point Reyes (37°59.7' N. lat., 123°01.3' W. long.).

(b) *Subarea B closures*. Those portions of Subarea B described as—

(1) *Ornard closure* (see Figure 1 to this subpart). The area that extends offshore 4 miles from the mainland shore between lines running 250° true from the steam plant stack at Manadabay Beach (34°12.4' N. lat., 119°15.0' W. long.) and 220° true from the steam plant stack at Ormond Beach (34°07.8' N. lat., 119°10.0' W. long.).

(2) *Santa Monica Bay closure* (see Figure 1 to this subpart). Santa Monica Bay shoreward of that line from Malibu Point (34°01.8' N. lat., 118°40.8' W. long.) to Rocky Point (Palos Verdes Point) (33°46.5' N. lat., 118°25.7' W. long.).

(3) *Los Angeles Harbor closure* (see Figure 1 to this subpart). The area outside Los Angeles Harbor described by a line extending 6 miles 180° true from Point Fermin (33°42.3' N. lat., 118°17.6' W. long.) and then to a point located 3 miles offshore on a line 225° true from Huntington Beach Pier (33°39.2' N. lat., 118°00.3' W. long.).

(4) *Oceanside to San Diego closure* (see Figure 1 to this subpart). The area 6 miles from the mainland shore south of a line running 225° true from the tip of the outer breakwater (33°12.4' N. lat., 117°24.1' W. long.) of Oceanside Harbor to the United States-Mexico International Boundary.

§ 660.508 Annual specifications.

(a) The Regional Administrator will determine any harvest guideline, quota, Annual Catch Limit (ACL) (defined at § 600.310(f)(2)) or Annual Catch Target (ACT) (defined at § 600.310(f)(2) of this chapter) in accordance with the framework process in the FMP.

(b) Any harvest guideline, quota, ACL, or ACT, including any apportionment between the directed fishery and set-aside for incidental harvest, will be published in the FEDERAL REGISTER.

(c) The announcement of each harvest guideline, quota, ACL or ACT will contain the following information if available or applicable:

(1) The estimated biomass or MSY proxy on which the harvest guideline, quota, ACL or ACT was determined;

(2) The portion, if appropriate, of the harvest guideline, quota, ACL or ACT set aside to allow for incidental harvests after closure of the directed fishery;
